SPC Connect

Quick Start Guide Android Phone

The SPC Connect app is available on Google Play.

To get started with SPC Connect on your Android phone, download the app, then:

1. Create an account with SPC Connect:
   a. Open the SPC Connect app, tap **Menu** in the top right of the screen, then tap **Account > Register Now**.
   b. Enter your details, then tap **Send**.
   c. Click the confirmation link in the activation email sent to the email address provided during registration.

2. Log in to the app using your registered username and password.

3. Register your panel(s):
   a. Tap **Menu** in the top right of the screen, tap **Account > Manage Panels**, then tap **Add Panel**.
   b. Enter a site name, then enter the **Reg. ID**, **Panel Username** and **Panel Password** provided to you by your panel installer.
   c. Tap **Send**.

Register your panel using these details:

Reg. ID:	
Panel Username:	
Panel Password:	

4. View and manage your panel(s):
   a. Tap **Menu** in the top right of the screen, then tap **Sites** to view the list of panels and sites.
   b. Tap the panel or the site you want to view.
   c. On the **Site Summary** screen, tap an icon to: **Unset/Partset/Fullset** the panel; tap an alarm/area to open a screen where you can **Inhibit/Deinhibit/Isolate/Deisolate** an alarm, or **Unset/Partset/Fullset** an area.
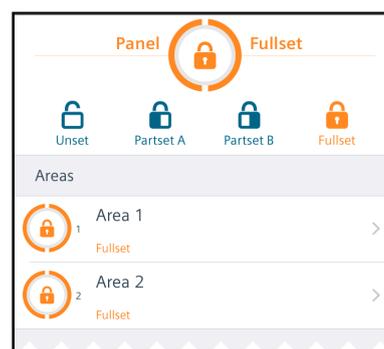

Google Play and the Google Play logo are trademarks of Google Inc. For more information on SPC Connect, see *http://bit.ly/SPCuser*.

Important: Each SPC Connect user should have their own SPC Connect account and unique password: do not share accounts or passwords with family members or colleagues. Ensure that your SPC Connect password is secure: do not divulge it to anyone. Use a secure email address when registering with SPC Connect: your email account can be used to reset/change your SPC Connect password. If your phone is lost or stolen, log on to https://www.spcconnect.com and change your account password immediately. Enable the password protection feature in the SPC Connect app (under **Settings > Security**). Enable your mobile device's main password protection feature to ensure higher security protection.
